### Federal Railroad Administration

#### Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favour of relief.

#### Mount Rainier Scenic Railroad

[Docket Number FRA-2002-12270]

The Mount Rainier Scenic Railroad, on behalf of Mr. Chris Baldo, seeks a waiver of compliance number FRA-2002-12270, with the *Inspection and Maintenance Standards for Steam Locomotives*, 49 CFR part 230, published November 17, 1999. Section 230.51 of the standards requires that each steam locomotive be equipped with two water glasses. The Mount Rainier Scenic Railroad seeks this waiver for one locomotive number MCL Co. 7 which is equipped with only one water glass and tri cocks. Mount Rainier Scenic Railroad indicates that the locomotive was rebuilt June 2001, and there is insufficient room to install the second water glass. The locomotive is currently stored at the Roots of Motive Power Museum, at Willits, CA. If the request is approved the locomotive would be operated over the California Western Railroad.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate

scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (*e.g.*, Waiver Petition Docket Number FRA-2002-12270) and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PL-401, Washington, DC. 20590-0001. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9:00 a.m.—5:00 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Issued in Washington, DC, on June 19, 2002.
